Cross Sectional Shape:

Circular

Nonmetallic Hardness Rating:

70.0 shore durometer a

Min. Tensile Strength (psi):

1700 pounds per square inch

Length:

4.000 feet

Surface Condition:

Any acceptable both sides

Cross Section Outside Diameter:

0.120 inches

Material:

Rubber, chloroprene

Material:

Rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
