Cross Sectional Shape:

Rectangular

Length:

144.000 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

1.250 inches

Cross-sectional Width:

0.750 inches

End Application:

Navy equipment

Special Features:

Cut to fit

Material:

Rubber, neoprene

Material:

Rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
