Cross Sectional Shape:

Rectangular

Length:

6.500 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

0.125 inches

End Application:

Seal delivery vehicle; 0000llcqa6597

Product Name:

Pad for: bracket, double block - cable and pipes

Special Features:

Has arched cutout on each short end: with radius of 0.250 centered 0.250 from short end and 0.500 from long edge

Material:

Rubber, neoprene

Material:

Rubber chloroprene class cr

Supplementary Features:

Made from neoprene rubber sheet per astm 2000 2bc 415 a14 b14 c12 e014 f17

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
