Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

45.0 shore durometer a

Min. Tensile Strength (psi):

1450 pounds per square inch

Length:

21.000 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

0.500 inches

Cross-sectional Width:

2.250 inches

End Application:

2350-01-080-9088

Material:

Rubber

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
