Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

90 pounds per square inch

Width:

36.000 inches

Temperature Rating:

-75.0 degrees fahrenheit and 205.0 degrees fahrenheit

Thickness:

0.018 inches

Length:

36.000 inches

Surface Condition:

Smooth both sides

Environmental Protection:

Corrosion resistant and not rated

End Application:

Apache attack helicopter

Material:

Silicone rubber, ams 3195

Material:

Rubber silicone class q

Specification Data:

81343-ams3195 manufacturers source control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
