Special Features:

Material: nitrile butadiene rubber (nbr). Color: black. Astm d-1056-67 classification (sbe-42). Astm d-1056-00 classification suffix requirements: b2, c1, f2, m. Tensile: 125 psi min. Elongation: 175 percent min. Standard sheet size: 36 in x 36 in (plus/minus 3 percent). Item of supply concept equals 0.500 inch thick. Materials represented by the designation r 416.

Color:

Black both sides

Material:

Rubber

Material:

Rubber isobutylene-isoprene class iir

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
