Cross Sectional Shape:

Rectangular

Length:

Between 1.960 inches and 2.000 inches

Cross-sectional Height:

Between 0.335 inches and 0.375 inches

Cross-sectional Width:

Between 0.730 inches and 0.760 inches

End Application:

Howitzer, light towed, 105mm, a119a1

Product Name:

Strip, rubber

Special Features:

Material neoprene rubber per astm d2000 2bc 307

Material:

Rubber, neoprene

Material:

Rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
