Cross Sectional Shape:

Round

Inside Diameter:

1.000 inches

Outside Diameter:

1.250 inches

Exterior Color:

Clear

Min. Tensile Strength (psi):

1200 pounds per square inch

Measuring Method And Length:

96.000 inches

Special Features:

Low density; tubing material: plastic, l-p-390, type 1, cl I, gr 1

Flexibility:

Rigid

Specification Or Standard:

L class and 1 grade and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200

Mil-std (military Standard):

Mil-p-21922 spec.
