Fabrication Method:

Cellular, exploded

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

12 pounds per square inch

Width:

13.500 inches

Thickness:

0.750 inches

Length:

22.000 inches

Material Transparency:

Opaque

Flexural Strength:

Not rated

Special Features:

Cellular structure rated 10 pores per linear in.

Color:

Any acceptable

Material:

Plastic, polyurethane foam

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
