Min. Tensile Strength (psi):

15000 pounds per square inch

Width:

Between 41.906 inches and 42.094 inches

Thickness:

0.003 inches

Length:

Between 1799.906 inches and 1800.094 inches

Special Features:

Matte finish surface with glazed back

Material:

Plastic, I-p-519, type i, class 2

Material:

Plastic, I-p-519, type i, class 2

Specification Or Standard:

I type and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
