Min. Tensile Strength (psi):

8000 pounds per square inch

Width:

40.000 inches

Thickness:

0.007 inches

Length:

18240.000 inches

Material Transparency:

Translucent

Material:

Plastic, cellulose acetate

Material:

Plastic cellulose acetate

Reference Number Differentiating Characteristics:

As differentiated by requirements, abry, abgl and abnm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A26800
