Fabrication Method:

Molded

Min. Tensile Strength (psi):

6000 pounds per square inch and 2000 pounds per square inch

Width:

36.000 inches

Thickness:

0.250 inches

Length:

36.000 inches

Material:

Plastic, tetrafluoroethylene

Material:

Plastic tetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
