Min. Tensile Strength (psi):

5300 pounds per square inch

Width:

20.000 inches

Thickness:

0.005 inches

Length:

30.000 inches

Material Transparency:

Clear

Special Features:

Matte finish one side

Material:

Plastic, cellulose acetate

Material:

Plastic cellulose acetate

Specification Or Standard:

I type

Departure From Cited Designator:

As modified by specialfeatures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
