Fire Retarding Characteristic:

Fire retarding

Width:

12.000 inches

Thickness:

4.000 inches

Length:

108.000 inches

Surface Condition:

Rough

Special Features:

Density, pounds per cubic foot, 2.50, 1.50

Material:

Plastic, polystyrene

Material:

Plastic polystyrene

Specification Or Standard:

2 type and 2 class and a grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T258-d

Mil-std (military Standard):

Mil-p-40619 spec.
