Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

8000 pounds per square inch

Width:

36.000 inches

Thickness:

0.187 inches

Length:

48.000 inches

Material Transparency:

Clear

Protective Covering Material:

Paper or film

Flexural Strength:

Not rated

Special Features:

Protective covering material on both sides, heat and weathering resistant

Material:

Plastic, acrylic

Material:

Plastic acrylic

Specification Or Standard:

A finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-5425 spec.
