Fabrication Method:

Solid

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

1450 pounds per square inch

Width:

24.000 inches

Thickness:

0.015 inches

Length:

24.000 inches

Flexural Strength:

87500 pounds per square inch

Special Features:

Adhesive surface treatment one side only

Color:

Red

Material:

Plastic, mis 11132-1, army missile command

Material:

Plastic

Material Specification:

Mis 11132-1, army missile command military specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

spec.
