Cross Sectional Shape:

Round

Inside Diameter:

0.250 inches

Outside Diameter:

0.375 inches

Exterior Color:

Black

Inside Surface Condition:

Smooth

Measuring Method And Length:

36.000 inches excluding end fittings

Material:

Plastic phenolic tube and cotton tube

Material Specification:

Astm d709, type ii, grade le assn standard single material response tube

Specification Data:

81346-astmd709 professional/industrial association standard

Specification Or Standard:

Le grade and ii type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
