Fabrication Method:

Molded

Min. Tensile Strength (psi):

4000 pounds per square inch

Width:

Between 36.000 inches and 36.250 inches

Thickness:

0.093 inches

Length:

Between 36.000 inches and 36.250 inches

Material Transparency:

Opaque

Material:

Plasticmil-p-22241typeigradea

Material:

Plasticmil-p-22241typeigradea

Specification Or Standard:

A grade and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-22241 spec.
