Fabrication Method:

Solid

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

1600 pounds per square inch

Width:

5.000 inches

Thickness:

0.012 inches

Length:

6.000 inches

Material Transparency:

Clear

Flexural Strength:

Not rated

Color:

Clear

Material:

Plastic, vinyl chloride, I-p-375, type 2, class 1

Material:

Plastic polyvinyl chloride

Material Specification:

L-p-375, type 2, class 1 federal specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
