Fabrication Method:

Cast

Min. Tensile Strength (psi):

5000 pounds per square inch

Width:

54.000 inches

Thickness:

0.006 inches

Material Transparency:

Translucent

Special Features:

100 lb unit qty, roll

Material:

Plastic, polyvinyl alcohol

Material:

Plastic polyvinyl alcohol

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
