Min. Tensile Strength (psi):

15000 pounds per square inch

Width:

24.000 inches

Thickness:

0.007 inches

Length:

30.000 inches

Material Transparency:

Clear

Special Features:

Both sides matte finish

Material:

Plastic, I-p-519, type 2, class 1

Material:

Plastic polyolefin

Material Specification:

L-p-519, type 2, class 1 federal specification 1st material response

Specification Or Standard:

1 class and sheet form and ii type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
