Min. Tensile Strength (psi):

15000 pounds per square inch

Width:

48.000 inches

Thickness:

0.008 inches

Length:

1200.000 inches

Material Transparency:

Translucent

Protective Covering Material:

Plastic

Material:

Plastic, I-p-519, type 1, class 1

Material:

Plastic polyolefin

Material Specification:

L-p-519, type 1, class 1 federal specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
