Min. Tensile Strength (psi):

1700 pounds per square inch and 1200 pounds per square inch

Width:

Between 19.812 inches and 20.188 inches

Thickness:

0.006 inches

Length:

Between 49.812 inches and 50.188 inches

Material Transparency:

Opaque

Material:

Plastic, polyethylene, l-p-378, type 1, grade b

Material:

Plastic polyethylene

Material Specification:

L-p-378, type 1, grade b federal specification 1st material response

Specification Or Standard:

1 class and 1 finish and b grade and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-3803 spec.
