Plastic Sheet - Page 1 of 1

AeroBase Group

View Online at https://aerobasegroup.com/nsn/9330-00-905-9106

Fabrication Method:LaminatedWidth:36.000 inchesThickness:Between 0.085 inches and 0.103 inchesLength:Between 38.000 inches and 43.000 inchesMaterial Transparency:OpaqueProtective Covering Material:PaperStrengthening Feature Material:Plastic, phenolic resinFlexural Strength:

13500 pounds per square inch

Strengthening Feature:

Base or filler

Special Features:

Smooth surface

Color:

Black both sides

Material:

Plastic, phenolic, astmd709, type 1, grade es-1

Material:

Plastic, phenolic, astmd709, type 1, grade es-1

Specification Data:

81346-astmd709 professional/industrial association standard

Specification Or Standard:

Es-1 grade and i type

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A26800
