Fabrication Method:

Cast

Min. Tensile Strength (psi):

3000 pounds per square inch and 3000 pounds per square inch

Width:

0.007 inches

Thickness:

0.063 inches

Length:

16.000 inches

Material Transparency:

Translucent

Material:

Plastic, polytetrafluoroethylene, mil-p-22241

Material:

Plastic polytetrafluoroethylene

Material Specification:

Mil-p-22241 military specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-22241 spec.
