Fabrication Method:

Rolled

Min. Tensile Strength (psi):

1700 pounds per square inch and 1200 pounds per square inch

Width:

20.000 inches

Thickness:

0.002 inches

Length:

50.000 inches

Material Transparency:

Clear

Color:

Clear

Material:

Plastic polyethylene

Material Specification:

L-p-378, type 1, grade b federal specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
