Fabrication Method:

Rolled

Min. Tensile Strength (psi):

2300 pounds per square inch

Width:

54.000 inches

Thickness:

0.012 inches

Length:

1800.000 inches

Material Transparency:

Clear

Color:

Clear

Material:

Plastic polyvinyl chloride

Specification Or Standard:

1 type and 1 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
