Fabrication Method:

Laminated

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Width:

36.000 inches

Thickness:

0.125 inches

Length:

36.000 inches

Material Transparency:

Opaque

Strengthening Feature Material:

Any acceptable

Flexural Strength:

14000 pounds per square inch

Strengthening Feature:

Filler

Special Features:

Semigloss or polished finish

Color:

Black both sides

Material:

Plastic, phenolic, astmd709, type 2, grade ce

Material:

Plastic, phenolic, astmd709, type 2, grade ce

Specification Data:

81346-astmd709 professional/industrial association standard

Specification Or Standard:

Sheet form and ce grade and ii type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
