Fabrication Method:

Solid

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

8000 pounds per square inch and 11000 pounds per square inch

Width:

48.000 inches

Thickness:

0.125 inches

Length:

48.000 inches

Material Transparency:

Translucent

Protective Covering Material:

Paper

Flexural Strength:

12000 pounds per square inch and 17000 pounds per square inch

Color:

White

Material:

Plastic, acrylic

Material:

Plastic acrylic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
