Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

6000 pounds per square inch

Width:

40.000 inches

Thickness:

0.250 inches

Length:

50.000 inches

Flexural Strength:

12000 pounds per square inch

Special Features:

Used to make cp27-100 pads for coin press

Color:

Red

Material:

Fiber, mil-f-1148, grade ch, form s

Material:

Paper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
