Fabrication Method:

Cellular, exploded

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

12 pounds per square inch

Width:

48.000 inches

Thickness:

0.250 inches

Length:

300.000 inches

Material Transparency:

Opaque

Flexural Strength:

Not rated

Special Features:

20 pores per in.

Color:

Beige

Material:

Plastic, polyurethane foam

Material:

Plastic polyurethane

Reference Number Differentiating Characteristics:

As differentiated by color, length, width and thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
