Fabrication Method:

Skived

Min. Tensile Strength (psi):

2800 pounds per square inch

Width:

48.000 inches

Thickness:

0.062 inches

Length:

48.000 inches

Material Transparency:

Opaque

Special Features:

Smooth finish

Material:

Plastic, ptfe, type ii, grade 1

Material:

Plastic, ptfe, type ii, grade 1

Specification Or Standard:

Ii type and 1 grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-22241 spec.
