Min. Tensile Strength (psi):

15000 pounds per square inch

Width:

Between 23.038 inches and 24.062 inches

Thickness:

0.0075 inches

Length:

Between 29.038 inches and 30.062 inches

Material Transparency:

Clear

Special Features:

Matte finish surface with glazed back

Material:

Plastic, I-p-519, type 1, class 1

Material:

Plastic polyolefin

Material Specification:

L-p-519, type 1, class 1 federal specification 1st material response

Specification Or Standard:

1 class and i type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
