Cross Sectional Shape:

Round

Inside Diameter:

1.030 inches

Outside Diameter:

1.250 inches

Exterior Color:

Natural

Inside Surface Condition:

Smooth

Measuring Method And Length:

8.560 inches

Material:

Plastic melamine tube and glass tube

Material Specification:

Astm d709, class rolled, grade g-5, type iv assn standard single material response tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
