Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

12300 pounds per square inch

Width:

12.000 inches

Thickness:

0.062 inches

Length:

12.000 inches

Flexural Strength:

18000 pounds per square inch

Special Features:

Filled with molybdenum disulfide

Color:

Black or gray

Material:

Nylon

Material:

Plastic polyamide

Reference Number Differentiating Characteristics:

As differentiated by length, width and thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
