Fabrication Method:

Extruded

Min. Tensile Strength (psi):

50 pounds per square inch

Width:

48.000 inches

Thickness:

2.000 inches

Length:

48.000 inches

Material Transparency:

Opaque

Material:

Plastic, polyethylene foam

Material:

Plastic, polyethylene foam

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
