Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Width:

4.000 inches

Thickness:

0.025 inches

Length:

16.000 inches

Flexural Strength:

Not rated

Special Features:

Dimensions and tolerances per ansi y14.5-1973; fabric mask; urethane adhesive application note 7

Material:

Plastic

Material:

Plastic

Supplementary Features:

Forms a bearing surface between the lateral support pad and the missile; end item peacekeeper missile canister

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
