Fire Retarding Characteristic:
Fire retarding
Width:
44.000 inches
Thickness:
8.000 inches
Length:
110.000 inches
Density Rating:
1.50 pounds per cubic foot
Compression Strength At 25 Pct Deflection:
Between 0.35 pounds per square inch and 0.60 pounds per square inch
Special Features:
Reticulated foam for explosion suppression a/c fuel tanks
Material:
Plastic, polyurethane
Material:
Plastic polyurethane
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T258-d
