**Fire Retarding Characteristic:**

Fire retarding

**Width:**

44.000 inches

**Thickness:**

12.000 inches

**Length:**

110.000 inches

**Density Rating:**

1.50 pounds per cubic foot

**Compression Strength At 25 Pct Deflection:**

Between 0.35 pounds per square inch and 0.60 pounds per square inch

**Special Features:**

Reticulated foam for explosion suppression a/c fuel tanks

**Material:**

Plastic, polyurethane

**Material:**

Plastic polyurethane

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T258-d
