Overall Length:

2.250 inches

Overall Width:

0.680 inches

Overall Thickness:

0.062 inches

Material Transparency:

Clear

Min. Tensile Strength (psi):

9000 pounds per square inch

Special Features:

Two 0.156 in. Diameter holes spaced 1.875 in. C to c

Material:

Plastic methyl methacrylate

Material Specification:

L-p-391, grade c, type iii federal specification single material response

Style Designator:

Square corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A15000
