Cross Sectional Shape:

Circular

Fabrication Method:

Extruded

Length:

0.250 inches

Surface Condition:

Smooth both sides

Cross Section Outside Diameter:

8.000 inches

Color:

Black both sides

Material:

Plastic, polyethylene, l-p-512

Material:

Plastic polyethylene

Material Specification:

L-p-512 federal specification 1st material response

Specification Or Standard:

H class and 1 grade and 3 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
