**Min. Tensile Strength (psi):**

22 pounds per square inch

**Width:**

4.000 inches

**Tempurature Rating:**

160.0 degrees fahrenheit

**Length:**

55.000 yards

**Material Transparency:**

Opaque

**Special Features:**

Heat shrinkable, treated 7 1/2 percent ultraviolet inhibitors rated 5 years

**Color:**

White both sides

**Material:**

Plastic polyethylene

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A26800
