Min. Tensile Strength (psi):

8000 pounds per square inch

Width:

60.000 inches

Thickness:

0.250 inches

Length:

96.000 inches

Special Features:

Heat resistant; water repellant; colorless; translucent; water absorption 0.40 pct; burning rate 1.50

Material:

Plastic, acrylic

Material:

Plastic acrylic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-5425 spec.
