Overall Length:

3.620 inches

Overall Width:

2.000 inches

Overall Thickness:

Between 0.220 inches and 0.240 inches

Material Transparency:

Translucent

Temperature At Maximum Operating Pressure:

-200.0 degrees celsius

Features Provided:

Frame and light reducing

Special Features:

Aluminum frame, mesh nickle copper wire

Color:

Red

Material:

Plastic methyl methacrylate

Material Specification:

L-p-391, type 1, grade c federal specification single material response

Style Designator:

Square corners

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A15000
