**Fabrication Method:**

Extruded

**Min. Tensile Strength (psi):**

13000 pounds per square inch

**Width:**

36.000 inches

**Thickness:**

0.125 inches

**Length:**

48.000 inches

**Material Transparency:**

Opaque

**Special Features:**

Heat, wear and weather resistant

**Color:**

Black both sides

**Material:**

Plastic, polyamide, polyhexamethylene adipamide, I-p-410

**Material:**

Plastic polyhexamethylene adipamide

**Material Specification:**

L-p-410 federal specification 1st material response

**Specification Or Standard:**

Polyhexamethylene adipamide 6/6 black with or without fillers composition composition

**Departure From Cited Designator:**

As modified by color

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
