**Fabrication Method:**

Molded

**Min. Tensile Strength (psi):**

2500 pounds per square inch

**Width:**

23.250 inches

**Thickness:**

0.250 inches

**Length:**

32.000 inches

**Material Transparency:**

Opaque

**Material:**

Plastic, polytetrafluoroethylene

**Material:**

Plastic polytetrafluoroethylene

**Specification Or Standard:**

2 type and 2 grade and b class

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800

**Mil-std (military Standard):**

Mil-p-22241 spec.
