Fabrication Method:

Molded

Min. Tensile Strength (psi):

2500 pounds per square inch

Width:

23.250 inches

Thickness:

0.250 inches

Length:

32.000 inches

Material Transparency:

Opaque

Material:

Plastic, polytetrafluoroethylene

Material:

Plastic polytetrafluoroethylene

Specification Or Standard:

2 type and 2 grade and b class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800

Mil-std (military Standard):

Mil-p-22241 spec.
