Nonmetallic Hardness Rating:

50.0 astm scale

Min. Tensile Strength (psi):

76 pounds per square inch

Width:

0.165 inches

Thickness:

0.050 inches

Length:

0.250 inches

Flexural Strength:

2600 pounds per square inch

Material:

Nylon

Material:

Plastic polyamide

Specification Or Standard:

1 class and 1 grade and 1 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A26800
