Min. Tensile Strength (psi):

13000 pounds per square inch

Width:

24.000 inches

Thickness:

1.000 inches

Length:

48.000 inches

Material:

Plastic, polyamide, polyhexamethylene adipamide, I-p-410

Material:

Plastic polyhexamethylene adipamide

Material Specification:

L-p-410 federal specification 1st material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
