Min. Tensile Strength (psi):

4600 pounds per square inch

Width:

48.000 inches

Thickness:

0.062 inches

Length:

96.000 inches

Flexural Strength:

150000 pounds per square inch

Special Features:

Tivar 1000 material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
